New Orleans, La., July 25.—Cotton—Spot cotton—Spot cotton quiet. 36, C. locates of the spot 32 bales; to France. Sep. 93.933

Ballimore. M.P., July 26.—Butter—Firm at 70c.; Southern on grade, Sules, to device, 11,244 bales; to State, 12,545 octoon.

New Orleans, La., July 25.—Cotton—Spot cotton—Spot cotton—S ern half of the cotton belt, where rain is considered very deficient and essential to the growing crop. The continued dry weather in the Western half of the belt, particularly in Texas, and the forecast for fair weather for that State was also unsatisfactory and led to considerable buying for both accounts. It was a weather market all morning. Report of rain in Alabama and Mississippi, with continued hot, dry weather over Texas and Oklahoma, stimulated buying for both accounts, and around the middle of the morning the old crop months were 25 points up. On this rise profit-taking by longs became general, and the list underwent a reaction of 2@13 points. Just before noon October and January stood 20 points up, and December 25 up, while the old crop months were 6@12 up. In the afternoon session fresh long buying of the new crops started on the decline, and at 2 o'clock, although August showed little power to rise, the new crop months were only 2@3 points down from the highest, and offerings around the ring were scanty. The close was steady, unchanged to 5 points up on the new. Futures closed steady. Closing bids: July, 41-70, August, 14-35 September, 12-70; October, 13-22; December, 12-12; January, 13-13; March, 13-23.
